Dear Shasta County Planning Commission,

As a construction worker in Northern California, I am writing in strong support of the Fountain Wind Project. This project will employ hundreds of construction workers right here in Shasta County, creating apprenticeship opportunities for North State residents. I appreciate the concerns that have been raised by the project opponents, but I believe that those concerns have been adequately addressed. This process has been very transparent and engaging, and I credit the project applicant and Shasta County Staff for their work in making that a reality. On behalf of myself and my family, I encourage you to do what the majority of Shasta County residents are asking for: approve this project as presented.

Regards,
Jaime Carrillo
