Dear Shasta County Planning Commission,

As a construction worker in Northern California, I am writing in strong support of the Fountain Wind Project. This project will employ hundreds of construction workers right here in Shasta County, creating apprenticeship opportunities for North State residents. I appreciate the concerns that have been raised by the project opponents, but I believe that those concerns have been adequately addressed. This process has been very transparent and engaging, and I credit the project applicant and Shasta County Staff for their work in making that a reality. On behalf of myself and my family, I encourage you to do what the majority of Shasta County residents are asking for: approve this project as presented.

Regards,
Vincent dare

All county jobs should be union for it saves money and gets done faster. Take the down town mess for example that was non-union and it's still a mess

Dear Shasta County Planning Commission,

This would be a great opportunity for Shasta County. It would bring in hundreds of people who would be spending money and helping out our local businesses. It would also give people like myself to be home and work at home. I work away from home in construction and would love nothing more to have a job at home.

Regards,
Michael Kenyon
