Re: Support for the Fountain Wind Project

Members of the Shasta County Planning Commission:

On behalf of J.F. Shea Construction, I respectfully request that you certify the Final EIR and approve the use permit for the Fountain Wind Project. J.F. Shea's construction division which primarily serves our North State began operations in Shasta County in 1956. Our main construction focus has been on highways, bridges, paving, and earthwork. We have approximately 121 employees from the local area who operate out of our two aggregate mining and asphalt plant facilities, one located along Clear Creek Road in Redding and the other in the Fawndale area of Shasta County near I-5. We are currently constructing the approximate 7.5-mile I-5 six-lane expansion project between the Cities of Anderson and Redding. This \$132 million project will not only improve traffic flow along I-5 but also provides tax revenues and employment benefits to Shasta County residents.

Being a major local employer, we understand the significant economic merits of the \$300+ million Fountain Wind Project. This Project is the type of investment that seldom comes to Shasta County and represents a substantial investment in the unincorporated part of our County. The approximate \$3.5 million in sales tax revenue during construction and the \$50+ million in property taxes paid during project operations can be used by Shasta County for the betterment of all of its residents. Not only is this a good Project for the County as a whole, but it is also a good project for the residents of the local communities of Montgomery Creek, Round Mountain, and Big Bend. The tax revenues coupled with the proposed Community Benefit Program addressing fuel reduction projects, repurposing of the Cedar Creek School, enhanced local internet service, Sherriff's Office public safety funding, and the Pit River Tribe workforce development funding opportunities provide well-rounded socio-economic benefits that are not normally associated with any type of development project.

I understand there are impacts associated with this project, as there are always impacts associated with any project, whether it's a highway expansion or a housing development, however I commend the County and the Planning Division on the job they did to identify, analyze, and mitigate impacts identified in the EIR coupled with the Conditions of Approval. In particular the Staff Report discussed how the proposed project would in the event of a wildfire provide more reliable access and fire breaks to allow firefighters to stop, slow or control a fire. Clearly, the project design and all the project related documentation (DEIR, FEIR, Staff Report, and Conditions of Approval) support that this is a good project in a good location compatible with existing land uses.

Thank you for your consideration of this letter and J.F. Shea's support for the Fountain Wind Project.

Respectfully,

Ed Kernaghan, Vice-President, and General Manager

Tracie Huff

Dear Shasta County Planning Commission,

As a construction worker in Northern California, I am writing in strong support of the Fountain Wind Project. This project will employ hundreds of construction workers right here in Shasta County, creating apprenticeship opportunities for North State residents. I appreciate the concerns that have been raised by the project opponents, but I believe that those concerns have been adequately addressed. This process has been very transparent and engaging, and I credit the project applicant and Shasta County Staff for their work in making that a reality. On behalf of myself and my family, I encourage you to do what the majority of Shasta County residents are asking for: approve this project as presented.

Regards,
Frank Finney

This project will employ hundreds of construction workers right here in Shasta County, creating apprenticeship opportunities for North State residents. I appreciate the concerns that have been raised by the project opponents, but I believe that those concerns have been adequately addressed. This process has been very transparent and engaging, and I credit the project applicant and Shasta County Staff for their work in making that a reality. On behalf of myself and my family, I encourage you to do what the majority of Shasta County residents are asking for: approve this project as presented.

Regards,
Alyssa Pierce

Dear Shasta County Planning Commission,

As a construction worker in Northern California, I am writing in strong support of the Fountain Wind Project. This project will employ hundreds of construction workers right here in Shasta County, creating apprenticeship opportunities for North State residents. I appreciate the concerns that have been raised by the project opponents, but I believe that those concerns have been adequately addressed. This process has been very transparent and engaging, and I credit the project applicant and Shasta County Staff for their work in making that a reality. On behalf of myself and my family, I encourage you to do what the majority of Shasta County residents are asking for: approve this project as presented.
